Revenue and Expense Trends

FISCAL YEARS 2014 THROUGH 2018

PREPARED BY THE UC OFFICE OF THE PRESIDENT

Revenue and Expense Trends
Fiscal Years 2014 through 2018

TABLE OF CONTENTS

Introduction and Brief Description of Categories 1

UNIVERSITY OF CALIFORNIA SYSTEM 5

Revenues by Source and Expenses by Function 7
Revenues and Expenses by Campus 9
Summary of Actual Revenues and Expenses 11
Revenues by Source by Campus 12
Expenses by Function by Campus 13

CAMPUSES 17

Summary of Actual Revenues and Expenses
- University of California Berkeley 19
- University of California Davis 20
- University of California Irvine 21
- University of California Los Angeles 22
- University of California Merced 23
- University of California Riverside 24
- University of California San Diego 25
- University of California San Francisco 26
- University of California Santa Barbara 27
- University of California Santa Cruz 28

MEDICAL CENTERS 29

Revenues and Expenses by Medical Center 31
Summary of Actual Revenues and Expenses
- University of California Medical Centers 33
- University of California Davis Medical Center 34
- University of California Irvine Medical Center 35
- University of California Los Angeles Medical Center 36
- University of California San Diego Medical Center 37
- University of California San Francisco Medical Center 38

Revenue and Expense Trends

INTRODUCTION AND BRIEF DESCRIPTION OF CATEGORIES

Fiscal Years 2014 through 2018

INTRODUCTION

The source of the information contained in the campus tables is primarily from the University's Corporate Financial Reporting System (CFR). The CFR is a data warehouse that captures financial information for each of the campus and systemwide locations and presents the results in the required external reporting format. Campus locations include medical centers. The CFR provides financial information by location that supports the University's audited financial statements on a consolidated basis.

Certain reclassifications have been made to the campus and systemwide location information contained in the CFR. For example, Short Term Investment Pool (STIP) income has been reclassified to the investment income line from inter-location transfers and interest expense has been reclassified to the interest expense line from inter-location transfers. These reclassifications do not affect the individual location's overall change in net position for any year and were made to more closely present individual campus financial information on a stand-alone basis.

The source of the information contained in the medical center tables is from the audited combined medical centers financial statements. Similar reclassifications were made to the medical center results so the presentation is consistent throughout the document.

For purposes of this report, revenues that are required to be reported as nonoperating revenues from an external reporting perspective, such as state educational or financing appropriations, private gifts and investment income, are included along with operating revenues. Similarly, expenses that are required to be reported as nonoperating expenses, such as interest expense and loss on the disposition of capital assets, are included with operating expenses. Net appreciation or depreciation in the fair value of investments is included with other changes in net position since it is not available for spending in any one year. From an internal reporting perspective, this provides a clearer view of the fundamental revenues and expenditures at the locations, yet allows for totals to agree to the CFR.

REVENUE CATEGORIES

Student Tuition and Fees, Net of Scholarship Allowances. All student tuition and fee revenues earned that are related to educational purposes, including admission application and University Extension revenue. Student tuition and fee revenues are net of scholarship allowances, including both financial aid and fee waivers. Scholarship allowances are the difference between the stated charge for tuition and fees and the amount that is paid by the student or third parties making payments on behalf of the student.

Grants and Contracts. Funding received from federal, state and local governments or private agencies, organizations or individuals. Grants and contracts include an amount for the facilities and administration cost recovery.

Medical Centers. Revenues, net of contractual allowances and bad debt expense, generated from University of California medical centers' patients, third party payors including Medicare and Medi-Cal, and others for services rendered. Other revenue from non-patient auxiliary services is also included.

At the UCSF Medical Center, revenues also include professional fees, net of allowances and bad debt expense, earned by the faculty physicians practicing as the UCSF Medical Group. Faculty practice plan revenue is not included in medical center revenues at the other four UC medical centers.

Educational Activities. Revenues primarily include professional fees, net of allowances and bad debt expense, earned by the faculty practice plans associated with UCB, UCD, UCI, UCLA, UCR and UCSD. Also includes revenues that are related to the conduct of instruction and training of students, including activities that exist to provide an instructional and laboratory experience for students that create goods and services that may be sold.

Auxiliary Enterprises. Revenues derived primarily from self-supporting operations that provide a service to students, faculty, or staff in which a fee is charged that is directly related to the cost of the service (e.g., residence halls, dining halls, parking facilities, bookstores, snack bars, inter-collegiate athletic programs, etc.). Similar to student tuition and fees, auxiliary enterprise revenues are net of scholarship allowances that are primarily associated with residence halls.

Department of Energy (DOE) Laboratories. The DOE laboratories operate on federally financed budgets. The University records the revenues and expenses associated with the Lawrence Berkeley National Laboratory. The University records its proportional share of the income of the Los Alamos National Security, LLC and the Lawrence Livermore National Security LLC, the operators of the Los Alamos National Laboratory (LANL) and the Lawrence Livermore National Laboratory (LLNL) in other revenues.

State Educational Appropriations. Appropriations from the state of California primarily to support the instructional component of the University for costs such as faculty salaries, utilities, and institutional support. In 2018, 2017 and 2016, these included $169.0 million, $171.0 million and $96.0 million, respectively, received from the state of California for contributions to the University of California Retirement Plan.

State Financing Appropriations. Appropriations from the state of California that provide for principal and interest payments associated with University facilities financed through lease-purchase agreements with the State Public Works Board (SPWB). SPWB issued Lease Revenue Bonds to finance construction of certain state-owned buildings to be used by the University. The state of California agreed to increase state educational appropriations in exchange for a reduction in state financing appropriations, which decreased with the refinancing of the Lease Revenue Bonds issued by the SPWB in October 2013.

Private Gifts. Consists of private gifts used for operating purposes. Excludes gifts received for capital purposes or for permanent endowments.

Investment Income*.* Consists primarily of earned investment income from participation in the University's STIP and Total Return Investment Pool (TRIP) and distributions paid from current year income from Regents endowments held for the benefit of the campus and invested in the General Endowment Pool (GEP). Unrealized gains or losses on investments are not included.

Other Revenues. Includes other operating revenue and other nonoperating revenues reported in the statement of revenues, expenses and changes in net position that are not included in the categories described above. Other operating revenues are from a variety of sources, including patent income, UC's proportional share of LANS and LLNS income, legal settlements, etc.

EXPENSE CATEGORIES

Salaries and Wages. Costs of salaries and wages for faculty and staff, including vacation, compensatory time, sabbatical leave, incentive awards, etc. It excludes salaries and wages of employees who are associated with the DOE laboratories. This category also excludes employee benefits.

Employee Benefits*.* Costs include the University's share of health and welfare costs for active employees, the University's share of costs for retiree health costs, pension, workers compensation, graduate student fee remission, etc.

The accounting standards define pension and retiree health benefit liability and expenses for financial reporting purposes and do not apply to contribution amounts for funding purposes. The University does not pre-fund retiree health benefits and instead provides for benefits based upon projected pay-as-you-go financing. Pension contributions are based upon a rate set by The Regents.

Scholarships and Fellowships*.* Costs for payments of financial aid made directly to students. This is in addition to scholarship allowances described above reported as an offset to student tuition and fees and auxiliary enterprises.

Utilities. Includes water and sewer, natural gas, electricity, etc.

Supplies and Materials*.* Includes costs for medical supplies; laboratory instruments supplies and chemicals; equipment below the capitalization threshold of $5,000 and other general and office supplies.

Depreciation and Amortization*.* Systematic allocation of the cost of long-lived assets, such as buildings, infrastructure and equipment that exceed the capitalization threshold, over their estimated useful lives.

DOE Laboratories. As described above, the University records the revenues and expenses associated with the Lawrence Berkeley National Laboratory. The difference between the revenues and expenses represents the University's fee for the period where the contract was directly between the University and the DOE.

Interest. Interest expense associated with University debt utilized to finance capital projects.

Other Expenses. Includes costs such as travel, postage, rent, printing and reproduction, repairs and maintenance, insurance and all other operating expenses not included in categories above. Also includes items in the nonoperating category of the University's statement of revenues, expenses and changes in net position, gain or loss on disposition of capital assets and other nonoperating expense.

OTHER CHANGES IN NET POSITION

State Capital Appropriations. Capital appropriations from the state are from bond measures approved by the voters.

Capital Gifts and Grants. Consists of private gifts of capital assets or funds to be used for capital purposes.

Permanent Endowments. Gifts to the University where the corpus must be held in perpetuity. These permanent endowments are those made to The Regents of the University of California and exclude campus foundations.

Net Appreciation / Depreciation in the Fair Value of Investments. Net realized and unrealized gains and losses in the University's investment portfolio, primarily the STIP, TRIP and GEP, exclude campus foundations and the University of California Retirement System (UCRS).

Transfers. Consists of the net effect of inter-campus transfers or transfers between the UC Office of the President and campuses. On a consolidated basis all transfers net to zero.

Prepared by the UC Office of the President

University of California System

Revenues by Source and Expenses by Function

For Fiscal Years 2014 through 2018

Notes:

(1) Represents revenues reported in the University's Annual Financial Report.

(2) Certain revenues, such as state educational appropriations, state financing appropriations, private gifts and investment income are required to be reported as nonoperating revenues in the University's Annual Financial Report. However, for purposes of this schedule they are included along with operating revenues in order to provide a more complete view of revenues that support the expenditures.

(3) Represents expenses reported in the University's Annual Financial Report.

(4) Interest expense, gain or loss on the disposition of assets and other nonoperating expenses are required to be reported as nonoperating expenses in the University's Annual Financial Report. However, for purposes of this schedule it is included along with operating expenses in order to provide a more complete view of expenses that are supported by revenues.

(5) Excludes the effect of net appreciation (depreciation) in fair value of assets that, for purposes of this schedule, is shown with other changes in net position. The net changes in the fair value is not available for spending in any one year, although enters into the increase (decrease) in net position in the University's Annual Financial Report.

(6) Other changes in net position categories on this schedule, such as state capital appropriations, capital gifts and grants, additions to permanent endowments and net appreciation or depreciation in the fair value of investments, represent activity that is reported in the University's Annual Financial Report and is in addition to the ongoing operating activity of the University.

(7) Revenues, expenses and other changes in net position do not include transfers between entities, such as transfers between UCOP and the campuses or transfers between campuses. Transfers between entities offset each other on a consolidated basis.

(8) Agrees to the University's Annual Financial Report.

(A) Net position was restated for the cumulative effect of implementing GASB Statement No. 80.

(B) Net position was restated for the cumulative effect of implementing GASB Statement No. 75.

(C) Net position was restated for the cumulative effect of implementing GASB Statement No. 81.

University of California System

Revenues and Expenses by Campus

For Fiscal Years 2014 through 2018

Notes:

(1) Represents revenues at each location as it is consolidated into the University's Annual Financial Report. Revenues do not include transfers between entities, such as transfers between UCOP and the campuses or transfers between campuses. Includes certain revenues, such as state educational appropriations, state financing appropriations, private gifts and investment income that are required to be reported as nonoperating revenues for external reporting purposes in the University's Annual Financial Report. However, for purposes of this schedule they are included along with operating revenues in order to provide a more complete view of revenues that support the expenditures.

(2) The Department of Energy laboratories operate on federally financed budgets. The University records the revenues and expenses associated with the Lawrence Berkeley National Laboratory. The University records its proportional share of the income of the Los Alamos National Security, LLC and the Lawrence Livermore National Security LLC, the operators of the Los Alamos National Laboratory (LANL) and the Lawrence Livermore National Laboratory (LLNL) in other revenues.

(3) Systemwide revenues and expenses consist primarily of activity related to systemwide programs (Education Abroad, Agriculture & Natural Resources), UCOP activities, other revenues reported on a consolidated basis, and other corporate level financial transactions required for consolidated financial reporting under generally accepted accounting principles. Systemwide other changes in net position include the net effect of transfers between entities, such as resource allocation transfers between UCOP and the campuses, additions to permanent endowments and net appreciation or depreciation in the fair value of investments.

(4) Represents expenses at each location as they are consolidated into the University's Annual Financial Report. Includes interest expense that is required to be reported as nonoperating expense for external reporting purposes in the University's Annual Financial Report. However, for purposes of this schedule it is included along with operating expenses in order to provide a more complete view of expenses that are supported by revenues.

(5) Other changes in net position categories, such as state capital appropriations and capital gifts and grants, represent activity that is reported in the University's Annual Financial Report and is in addition to the ongoing operating activity of the University. Also includes the net effect of transfers between entities, such as transfers between UCOP and the campuses or transfers between campuses. For the campuses, investment income, including endowment distributions, and interest expense has been reclassified from transfers to revenue and expenditures, respectively, in order to provide a more complete view of revenues and expenditures at each campus.

(6) Agrees to the University's Annual Financial Report.

(A) Net position was restated for the cumulative effect of implementing GASB Statement No. 80.

(B) Net position was restated for the cumulative effect of implementing GASB Statement No. 75.

(C) Net position was restated for the cumulative effect of implementing GASB Statement No. 81.

University of California System - Campuses and Medical Centers

Definition of Expense Functions

Instruction
The instruction category includes expenditures of instructional departments, as well as expenditures for research done as a part of regular instructional programs, Summer Sessions and University Extension.

Research
The research category includes all expenses for activities specifically organized to produce research, whether commissioned by an external agency or separately budgeted by an organizational unit within the University. It includes expenses for individual and/or project research, as well as that of institutes and research centers.

Public Service
The public service category includes expenses for activities established primarily to provide non-instructional services beneficial to individuals and groups external to the University. Examples include community service programs, cooperative extension services, cultural events, and museums intended primarily for the public (i.e., not intended primarily for instructional or research purposes).

Academic Support
The academic support category includes expenses incurred to provide support services for the University's primary missions: instruction, research, and public service. It includes libraries, museums and galleries, educational media services, academic support information technology, ancillary support (providing opportunities for students to gain practical experience/professional training, e.g., demonstration school, dental clinics, etc.), and academic administration (e.g., academic deans, including deans of research or graduate schools, and college deans).

Student Services
The student services category includes expenses incurred for offices of admissions and the registrar and activities with the primary purpose of contributing to students' emotional and physical well-being and intellectual, cultural, and social development outside the context of the formal instruction program. It includes expenses for student activities, cultural events, intramural athletics for certain programs or campuses, student organizations, counseling and career guidance, student aid administration, and student health services.

Institutional Support
The institutional support category includes expenses for central, executive-level activities concerned with management and long-range planning for the entire University, such as the Board of Regents, Office of the President, planning and programming operations, and legal services; fiscal operations, including the investment office; administrative information technology (when not accounted for in other categories); space management; employee personnel and records; logistical activities that provide procurement, storerooms, printing; transportation services to the institution; support services to faculty and staff that are not operated as auxiliary enterprises; and activities concerned with community and alumni relations, including development and fundraising.

Operation and Maintenance of Plant
The operation and maintenance of plant category includes all expenses for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant. They include expenses normally incurred for such items as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture, and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; safety; hazardous waste disposal; property, liability, and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. It does not include interest expense on capital-related debt.

Student Financial Aid
The student financial aid category includes expenses for scholarships and fellowships—from restricted or unrestricted funds—in the form of grants to students, resulting from selection by the University or from an entitlement program. The category also includes trainee stipends, prizes, and awards.

Medical Centers
The medical centers category includes all expenses associated with the patient care operations of a hospital, including nursing and other professional services, general services, administrative services, fiscal services, depreciation and charges for physical plant operations.

Auxiliary Enterprises
The auxiliary enterprises category includes all expenses associated with enterprises that are operated primarily for service to students and staff. Examples of auxiliary enterprises include housing operations, non-housing food service operations, parking operations, bookstores, student centers/unions, child-care centers and athletic expenses for certain programs or campuses.

Depreciation and Amortization
The depreciation and amortization category includes the systematic allocation of the cost of long-lived assets associated with infrastructure, buildings and improvements, equipment, computer software, intangible assets (e.g., easements, land rights, trademarks, patents, etc.) and library books and collections, over their estimated useful lives.

Impairment of Capital Assets
Impairment losses for capital assets are reported when its service utility has declined significantly and unexpectedly.

Interest Expense
The interest category includes the expense associated with revenue bonds, capital leases, third party debt, commercial paper, mortgages and other borrowings, interest rate swaps, and the amortization of discounts and premiums.

DOE Laboratory
This category includes the costs associated with the operation and management of the Lawrence Berkeley National Laboratory.

Other
This category includes expenses that are not included in the other categories above.

Notes:

(1) Represents revenues reported in each Medical Center's audited financial statements for the specific year. At San Francisco, revenues also include professional fees, net of allowances and bad debt expense, earned by faculty physicians practicing as the UCSF Medical Group. Faculty practice plan revenue is not included in medical center revenues at the other four locations.

Consistent with the presentation for campuses, includes certain revenue, such as investment income, that is required to be reported as nonoperating revenues for external reporting purposes in the Medical Center's audited financial statements. However, for purposes of this schedule it is included along with operating revenues in order to provide a more complete view of revenues that support the expenses.

(2) Represents expenses reported in each Medical Center's audited financial statements for the specific year. Consistent with the presentation for campuses, includes interest expense that is required to be reported as nonoperating expense for external reporting purposes in the Medical Center's audited financial statements. However, for purposes of this schedule it is included along with operating expenses in order to provide a more complete view of expenses that are supported by revenues.

(3) Other changes in net position generally include the net effect of transfers between the campus and medical center, primarily for capital-related activities and financial support for the School of Medicine.

(4) Agrees to the Medical Centers Report.

(A) Net position was restated for the cumulative effect of implementing GASB Statement No. 80.

(B) Net position was restated for the cumulative effect of implementing GASB Statement No. 75.

(C) Net position was restated for the cumulative effect of implementing GASB Statement No. 81.
